

STONE ACCREDITED ALDRICH REMARKS ON GERMAN COURSE

Reads Dispatches to Prove
European Government Is
Offended at Charges.

DEPEW SUPPORTS ORIGINAL SPEECH

Tilt Follows Charge That "Mis-
souri's Senator Seems to
Represent Germany."

Tariff discussion in the Senate took on a highly important international phase today.

The recent attack of Senators Aldrich and Dewey on the course of the German government in sending to this country a certain document dealing with wages and cost of production in Germany was heard from further. Senator Aldrich's recent declaration that the course of the German government was an imperiousness was taken up by Senator Stone of Missouri, who sought to call the Rhode Island Senator to account. The result was an acrimonious debate that occupied all of the morning session.

Sensor Stone read dispatches from Germany to the effect that the German government was offended at the recent remarks by Senator Aldrich on the floor of the Senate. He took the ground that Senator Aldrich's remarks were impolitic if not impolite. He pointed out that Senator Aldrich was the leader of the majority of the Senate, and what he said on a matter of this kind was inevitably given weight.

Precipitates Tilt.

A sharp colloquy occurred, in which Senator Aldrich declared he stood by what he said, but disclaimed any intention of offending the German government.

"The Senator from Missouri seems in some way to be representing the German government in this matter," said Senator Aldrich.

"That," said Senator Stone, with great emphasis and no little ginger, "is an impertinence. It is worse than an impertinence."

Sensor Aldrich said how the Secretary of State of the Senator from Missouri could know what was in the document in question was more than he knew. He accused the Senator from Missouri of basing his statements on mere newspaper news.

"The Senator from Missouri," said Senator Stone, "that I am in some way representing the German government. He has said that I am an American citizen representing American interests as much as he. I resent it and it is a gross impertinence. I told him in the debate the other day how I got my information and there is utterly and absolutely no excuse for him to make this accusation. I do not call upon him to retract, but I do not think any Senator should make such an utterance. I think Senator Aldrich asked what the Kaiser would say if American interests sought to influence the reichstag."

Germany's Position.

Sensor Stone said if the information office he did not think "any" legislator in the German parliament or any minister would denounce it as an impertinence on the part of the United States.

"These gentlemen were not satisfied with presenting the facts," said Senator Aldrich. "They undertook to deny facts presented by the Ways and Means Committee with a view to influencing legislation."

Sensor Stone contended it was regrettable a Senator so prominent as the Senator from Rhode Island had so far forgotten himself and the proprieties as to have offended the German government.

"The German government," he continued, "is not guilty of any impertinence or impropriety."

He proceeded to explain how the facts had been asked for by our own government. He did not know why the Finance Committee had sought to another and suppress the information. "Perhaps if the information had been put on the desks of our legislators in the Senate and House, my one chief purpose is that attention may be called to the matter here so that the Senator from Rhode Island may explain his source."

Explains Attitude.

Sensor Stone said that he wanted the German government to understand that the Senate did not stand by the (Continued on Seventh Page.)

ATTACHE OF CIRCUS HANGED ON BRIDGE

Negro Taken From Jail and
Lynched Near Govern-
or's Mansion.

FRANKFORT, Ky., June 3.—Within sight and sound of the governor's mansion John Maxie, a negro attache of a circus, after escaping death at the hands of a mob of his own race, was taken from jail early today by a white mob and lynched from a bridge over the Kentucky river. Maxie was discovered by Bert C. Bower, of Wichita, Kas., superintendent of laborers, of the circus, in ripping the canvas, and when ordered to desist, turned on Bower and shot him in the abdomen.

A mob of negro laborers from the circus, once attacked Maxie, when local officials succeeded in getting him away and placed him in jail. Further attempts at lynching were feared, and at 1:30 a. m. a mob of masked white men surrounded the jail, took the negro out and escorted him to the bridge across the Kentucky river, that separates North and South Frankfort.

Bower, the white man who was shot, is probably fatally injured. He is a member of the Elks at Valdosta, Ga., his former home.

Relatives attached to the circus are caring for him.

DEALT IN ALLEGED BAD MINING STOCK

Caught in Pittsburgh, But Released
Through Efforts of Min-
ister Wu.

SAN FRANCISCO, June 3.—Unable to secure redress in America because of the intervention of Minister Wu Ting-fang, Chinamen from this city and the East followed Low Sue Gay, Chinese imperial inspector of industries, from San Francisco to Hongkong and murdered him soon after he arrived in his native land, according to a cablegram received here today.

The murdered man was accused of having sold worthless mining stock to hundreds of Chinamen on the Pacific coast and in the East. It is thought that his accusers, who failed to secure his punishment in this country, followed him to China. The body was found in bed with eight knife wounds.

Lew came to America last February to study American industries, and so profited he became that he started to sell mining stock on a large scale. He and two companions were accused of selling fraudulent stocks and Lew was arrested in Pittsburgh on April 10, on charges preferred by some of his countrymen. They alleged that he had cleaned up half a million dollars. Minister Wu intervened and secured his release. Lew returned to China immediately.

The cable message says that the Chinese government has offered a reward of \$50,000 for the apprehension of the murderers.

All Employees Are Called
Out.

RESULTS OF STRIKE IN THE QUAKER CITY

Number of men idle, 4,000.
Number of men at work, 2,000.
Duration of strike, six days.
Cost to company, \$300,000.
Cost to men, \$44,000.
Number of persons injured, 50.
Number of persons arrested, 300.
Number of strike breakers, 1,500.
Number of cars in service, 550.
Number of cars idle, 1,500.

PHILADELPHIA, June 3.—The subway and elevated employees of the Philadelphia Rapid Transit Com- pany were called out at 9 o'clock this morning in the strike against the company, and within ten min- utes the tie-up on the line from Front street to Sixty-ninth street was complete.

Special policemen and detectives from city hall were immediately dispatched to every subway and ele- vated station and after a delay of thirty minutes several of the trains were started with strike breakers.

Rioting Is Resumed.

Rioting in Kensington was resumed again this morning, and it is feared that the disorders will be even greater than those of last night, when the strike-breakers are sent out with cars.

At the League Island Navy Yard twenty sailors clashed with the police at the gates of the yard early to- day. The sailors boarded a north- bound car, and had hardly been seated when one of the party called "scab" at the motorman, and the rest jeered loudly. When one of the two police- men on guard on the car ordered them to keep quiet, the sailors refused to obey, and the police resorted to the jeering and laughing at the officers.

The shooting followed an attempt by the officers to break up the crowd. Attracted by the sound of firing, a squad of marines came out from the yard and drove the sailors inside.

1,500 Strike-Breakers.

With 1,500 strike-breakers in the city the Transit Company is making every effort today to run at least 600 of its surface cars.

Several hundred special policemen, half of them a motley crowd of negroes, from the downtown districts, were sent by Director Clay this morning to Corridors in city hall were crowded early with men recruited by police Lieutenant John Sykes, of the Thirtieth and Westmoreland street station was today summarily suspended by Director Clay pending a trial before a police board of inquiry. Crowds of hooting, disorderly persons kept the police busy in the Lieutenant's district, hounding strikers and cars, and in a number of instances strike-breakers were dragged from their places and beaten by the mob.

In the hospitals today upward of thirty riot victims lie on beds. Two most seriously injured are Policemen Joseph McLaughlin, who received a concussion of the brain, and William Tajbot, whose side was bruised with a brick.

Firemen May Go Out.

There was intimation this morning that the firemen in the power stations will be called out in sympathetic strike this afternoon.

Concerning the allegations of violence and brutality against the police and the swearing in of special policemen by Director Clay, C. O. Pratt, in charge of the strike said, this morning:

"There is no power stronger than the
source from which it comes. Our reply
to Director Clay's tactics is a direct
appeal to the people. There will be
eighteen public mass meetings tonight.
There were about 20 riots in various
parts of the city last night, during
which 40 cars were wrecked and
badly torn up. In some cases after the
crows had been beaten and driven off,
the wrecked cars were burned on the
streets. I am sure that the Transit
Company had attempted to run cars
manned with strike-breakers a mob of
6,000 persons having been returned in
effigy from a trolley wire."

Prompted by the rioting of last night, Director Clay will probably again order the saloons of the city closed tonight at 6 o'clock.

Strike-Breakers Leave.

Declaring that they had been brought
here under false representation fifty im-
ported strike-breakers deserted from the
barn in Frankford today and gave
themselves up at the strikers' head-
quarters. They were sent back to New
York.

According to these men, the detective

VERDICT SET ASIDE IN QUEEN LIL'S CASE

Affidavits That Summons Tossed Into Her Automobile
Were Blown Away, "Knocks Out" \$11,600
Judgment for Dr. English.

Affidavits declaring that a deputy
United States marshal tossed the sum-
mons in the suit filed by Dr. Charles L.
English against Queen Lil, of Hawaii,
to her while she was in an automobile,
and that the wind blew it away, re-
sulted today in the setting aside of the
judgment of \$11,600 entered against the
former queen in favor of Dr. English,
who was her court physician.

In setting aside the judgment, Justice
Stafford also took into consideration an
affidavit that Dr. English had taken
\$1,200, in full payment for his services.

In entering suit against Mrs. Lydia
Dominus, as the former queen is now
known, Dr. English declared that he
had traveled with her under contract,
and that she had refused to settle the
amount due him. Judgment was taken

PEACEFUL STRIKING CAR MEN IN PHILADELPHIA PASSING THEIR TIME PLAYING CHECKERS.

NEW YORK, June 3.—The trial of the seven former employees of the Havemeyer refinery of the American Sugar Refining Company, indicted for conspiracy to defraud the Government in causing short-weight records of sugar received at the docks in Brooklyn to be recorded, will begin in the United States District Court here on June 11.

The seven, which includes Oliver Spitzer, formerly superintendent of the docks, and six men who were employed as weighers, were arraigned in court today and entered pleas of not guilty.

ATLANTIC CITY, June 3.—A form of the "blind staggers" that affects human beings, known as "pellagra," caused by eating products of musty corn, which is as loathsome as leprosy, and drives its victims insane before killing them, is due to sweep the Southern section of the country unless better methods of harvesting corn are adopted, according to Dr. J. W. Babcock, superintendent of the State Hospital for the Insane, of North Carolina, who read an extended paper on the subject before the American Medical Psychological Association, of the present methods of intensive cultivation is increasing in an alarming degree throughout the country. Only a few isolated cases have been found in the North, but south of the Mason and Dixon line 1,500 cases were reported during the past two years. The disease is frequently called Italian Jeopery in Europe, where it has become a menace.

A dispatch from Minister Russell, at Caracas, dated today states that Cuba and Venezuela have signed a preliminary agreement as a basis for a treaty of commerce and navigation and the boundaries, renewing the diplomatic relations between the two countries which have been severed for some time.

Senator Cobo, the Colombian commissioner, will be received by the Venezuelan government as envoy extraordinary to Venezuela.

LONDON, June 3.—The next International Congress of Applied Chemistry will be held in Washington, in 1912. Decision to this effect was reached at the closing session of the present congress here.

Prof. E. W. Morley, of Hartford, Conn., was elected honorary president for the 1912 gathering, and Dr. W. H. Nichols, of New York, was elected president. More than 3,000 delegates have been in attendance.

NEWPORT, June 3.—Navy transport Prairie has arrived for the draft of apprentice seamen for the battleships soon to start on the summer cruise. They will go aboard this afternoon, and the ship will probably sail immediately. The orders call for 75 apprentice seamen, the largest draft taken from this station at one time.

WEATHER REPORT.

Temperature continues above the nor-
mal in the Eastern States, and generally
in the extreme West and Northwest.
The indications are that there will be
general showers during the next thirty-
six hours in the middle Atlantic and
South Atlantic States, and slightly
warmer temperature is indicated in the
middle Atlantic States. Temperature
changes elsewhere in the East and
South will be slight.

The winds along the middle Atlantic
coast will be light to moderate variable,
becoming easterly and increasing.

FORECAST FOR THE DISTRICT.

Rain tonight and Friday; somewhat
warmer; moderate variable winds, becom-
ing easterly and increasing.
